

Friends of the Elderly (FotE) Supplier Options

If necessary, for some white goods, furniture and household items FotE can pay your clients grant straight to our selected suppliers. They will then arrange delivery with you/your client directly.

If this is the best option for your client, let us know a bit more about the item(s) they require and a member of the team will liaise with you to source the best available item.

Please remember that the maximum grant award is £400. Typically this will cover one white good or large furniture or electrical item (including installation and removal of old item).
